Who We Are

About Us

Texas Midwest Community Network (TMCN) was founded in 1994 to provide a means by which communities in the region can work together to accomplish what one community cannot do alone. Programs and activities sponsored by TMCN are designed to accomplish the goals as outlined in the Mission Statement. Membership in TMCN is comprised of communities in the region. Each member community is represented on the TMCN Council by a voting delegate.

A Commitment Towards Excellence

The research is clear. Engaged, committed individuals are more productive, more efficient and deliver high-level service. They move their organizations and communities forward! Participants will discover tools that will begin to move their organization from the stall, known as complacency, towards a world-class experience. Participants will examine their current community commitment; learn the importance of creating value with others, and that there is a difference between just being present and being passionate about what you do.

“You have the power to make a difference!”
